

# Brainstorm - Sketching

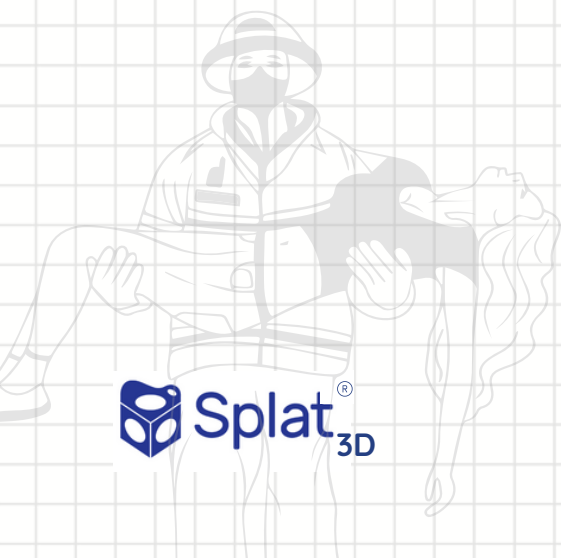

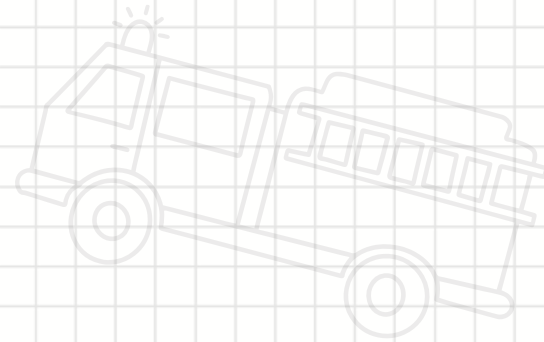

Sketch *lots* of ideas to encourage creative thinking

*'Thumbnails'* are small, quick sketches. They are thoughts on paper, with no time for neatness.

**Activity:** Practice being creative. In the space below, draw thumbnail sketches of your ideas. Be sure to annotate your sketches for further clarity of your ideas.

"annotate your sketches", means to use arrows and labels to help explain your ideas.

"A student with good ideas is simply a person with *lots* of ideas!"

Sketch *lots* of ideas to encourage creative thinking
